Staff Virtual Desktop with

What is Staff Virtual Desktop?

It is a service which provides staff with a Windows 10 virtual environment that runs from high-performance backend servers.

Staff Virtual Desktop provides you with

- A Windows 10 virtual desktop with common software
- Access to a catalogue of NUS Applications
- Minimise Logins to NUS Applications
- Seamlessly access NUS Applications from off campus

Why use Chromebook?

It has a formfactor of a laptop providing mobile access to Staff Virtual Desktop from anywhere.

Step 1. Login

Take note that if you are using the Lenovo and Asus Chromebooks, please refer to the **nTouch guide to** enroll Asus and Lenovo Chromebook before clicking Next.

Follow thru the Sign In and 2FA process.

Step 2. Chrome OS

Launch Staff Virtual Desktop or any NUS applications

			NUS Favorites Apps For You Support
