How to configure NUS Mail in Android

A. Introduction

This document shows the step by step instructions on how to configure NUS mail for your Android phone. Please note that the instructions may vary on the different versions of Android.

B. Configure NUS Mail on your Android

1. Make sure that you have 3G or wireless connection first. Tap on your Mail icon.

2. Tap on Microsoft Exchange ActiveSync.

3. Enter your NUS Email Address and NUSNET Password and select Manual Setup.
